Commandant Apartment

Cloître wabi-sabi
EMMANUELLE SIMON

A haven of peace in the centre of Paris, this project by Emmanuelle Simon sets a refined and pared down tone thanks to the curved furniture, interconnected spaces and high ceilings showcased by the cloister-like arches and large doors. Using simple materials, it creates soft colours and clean lines with warm materials, brushed oak and stone, travertine and natural fibres, all contributing to the "wabi-sabi" feel. A neutral colour palette was used throughout the apartment, with beige, sand and white.

APPLIQUE REGULAR
EMMANUELLE SIMON

Pour cette collection, la designer s'est inspirée d'une technique japonaise, laissant apparaître sur un buffet, un cabinet-bar ou cette applique en céramique et laiton piqueté et patiné, de délicates craquelures sur des cylindres immaculés.

For this collection, the designer drew inspiration from a Japanese technique, displaying delicate cracks on immaculate cylinders on a sideboard, cocktail cabinet and this sconce, in ceramic and pitted polished brass.

LUCE ORIZZONTALE
RONAN & ERWAN BOUROULLEC

Véritable lampe sculpture, chacun des cylindres de verre d'Orizzontale a été coulé dans un moule par un maître-verrier, leur donnant à tous un caractère unique. Modulable à l'envi, le luminaire peut s'équiper de huit à douze cylindres, à disposer autour d'une barre en aluminium primaire poli.

Lighting and sculpture in equal measure, each of the glass cylinders of Orizzontale have been poured into a mould by a master glassmaker, giving each one a unique character. Infinitely flexible, this light fixture can use between eight and twelve cylinders, fitted around a polished primary aluminium bar.
